JUNE 2024
SPECIAL EDITION

Principal's Desk

Mrs.Sashirekha s

This year promises to be a year of growth, exploration and achievements.

Our commitment to academic excellence remains unwavering, as does our dedication to nurturing the holistic development of every student. With focus on innovation in teaching practices and a comprehensive approach to student well-being, we aim to create an environment where each individual can thrive and realize their full potential. Let's continue to uphold the values of respect, responsibility and resilience that characterize our school community.

Together we will build on past successes and create new milestones that reflect our collective efforts and achievements. I extend my heartfelt gratitude to our supportive parents, dedicated educators and industrious students for their ongoing commitment to our school's mission. I look forward to a year filled with learning, discovery and memorable experiences. Here's to a successful academic year ahead!

**Warm regards,
Sashirekha S**

SSLC
EXAMINATION
2024

RITHIKA SHREE H

494/500

Std X Topper

Rithika Shree is the school topper in Std X Board exam 2023-24.

She has secured centum in Math and Science. She is also the top scorer in Tamil 98/100.

Total Centums - 7

Mathematics

Science

Social Studies

TAMIL NADU HSC

12th SCHOOL TOPPERS 2024

SRI GUHAN S

583/600

Science Stream Topper

Sri Guhan S
is the **Science**
Stream Topper.
He has scored
Centum in
Computer Science.
He is also the
Subject Topper in
Chemistry, English
German.

INDRAN S

557/600

Commerce Stream Topper

Indran S
topped the
Commerce Stream .
He has secured
Centum in **Commerce.**
He is the
subject topper in
Business Mathematics .

Congratulations

TAMIL NADU HSC

Biochemistry

Shree. S topped HSC (+1) examination 2024 with a Centum in Biochemistry.

After my 10th boards, I explored various Biochemistry-related subjects and found a vast ocean of information and its potential as a separate subject when it comes to job opportunities as a researcher. This is precisely the reason why I chose Biochemistry as one of my mains.

Branches of Biochemistry

Biochemistry

CURRENT TRENDS

Genome sequencing, drug interaction and discovery, personalized medicine.

Genome sequencing is causing a 'revolution' in early diagnosis that could fast-track the development of vital new treatments for a range of health conditions.

Biochemical research is now being augmented by rapid advances in artificial intelligence (AI) and machine learning, the ability to quickly and efficiently analyse vast pools of data enabling the scientists to chart previously unexplored areas of biochemistry.

OPPORTUNITIES

All life on Earth depends on biochemical reactions and processes. All diseases have a molecular basis, so biochemistry enables us to understand the chemical processes involved in varied diseases. Biochemists have huge opportunities to work as leading scientists in centrally funded institutes like CCMB (Centre for Cellular and Molecular Biology), InStem, NCBS (National Centre for Biological Sciences), NII (National Institute of Immunology), CDRI (Central Drug Research Institute)

Pursuing Higher Education in Germany

If you are planning to pursue your education in Germany, it would be advisable to learn German, as some of the courses are taught only in German and require a specific level of German proficiency (B1 in most cases).

Job Opportunities in India for German

Several international corporations with operations in India are looking for people fluent in German. A German Language Courses degree increases your employment prospects in India and with German and global companies abroad.

* The demand for professional German translators, interpreters, proofreaders, content writers, and trainers is always high. Jobs at the German uembassy in New Delhi and the consulates in Mumbai, Chennai, Kolkata, and Bangalore are also available. The German language's breadth is expanding.

Study /work in Germany, Austria, or Switzerland

The country offers a wide range of bachelor's, master's, doctoral, and post-doctoral degrees in German Language Courses.

* Germany's universities are regarded as among the greatest in the world. You'll graduate with an internationally recognised degree, offering you excellent employment chances worldwide. Because the states subsidise higher education in German Language Courses, most of its academic institutions, including those for international students, are free.

Middle
School

THE BRIDGE OF GROWTH

Middle school represents a pivotal stage in the educational journey, acting as a crucial bridge between childhood and adolescence. This phase is marked by significant cognitive, emotional, and social development, preparing students for the challenges of high school and beyond. At our SSV, we prioritize the holistic development of each student, ensuring they are well-equipped to navigate this transformative period.

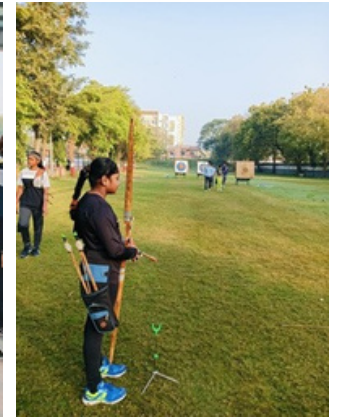

• Karate and Silambam: Our students excel in martial arts, advancing to higher levels in Karate and Silambam. These activities promote physical fitness, self-discipline, and perseverance. This year, students from classes 6 and 7 have earned numerous accolades, showcasing their dedication and skill.

THE BRIDGE OF GROWTH

We are particularly proud of Devashree from class 7, who has secured remarkable achievements in Archery. Her success is a testament to the hard work and support provided by our school community.

R. Devashree
Std VII

Middle school serves as a transitional phase where students evolve from dependent children to early adolescents.

Middle school at our institution is more than just a phase of education; it is a bridge of growth. We are committed to fostering an environment that supports the total development of each learner. Through a combination of rigorous academics, enriching extracurricular activities, and a supportive community, we prepare our students to transition smoothly into high school and beyond, equipped with the knowledge, skills, and character to succeed in all aspects of life.

OUR PRIMARY

"From Roots to Wings: A Journey of Growth"

Primary Education.... The name conjures up images of students, teachers, books, uniforms and classrooms --- Yes, it's all this and much more!

At S.S.V the classrooms, halls and ground resonate with the lively chatter of students where learning methodology incorporates play, responsibility and most importantly experience, leaving lasting impressions on the students.

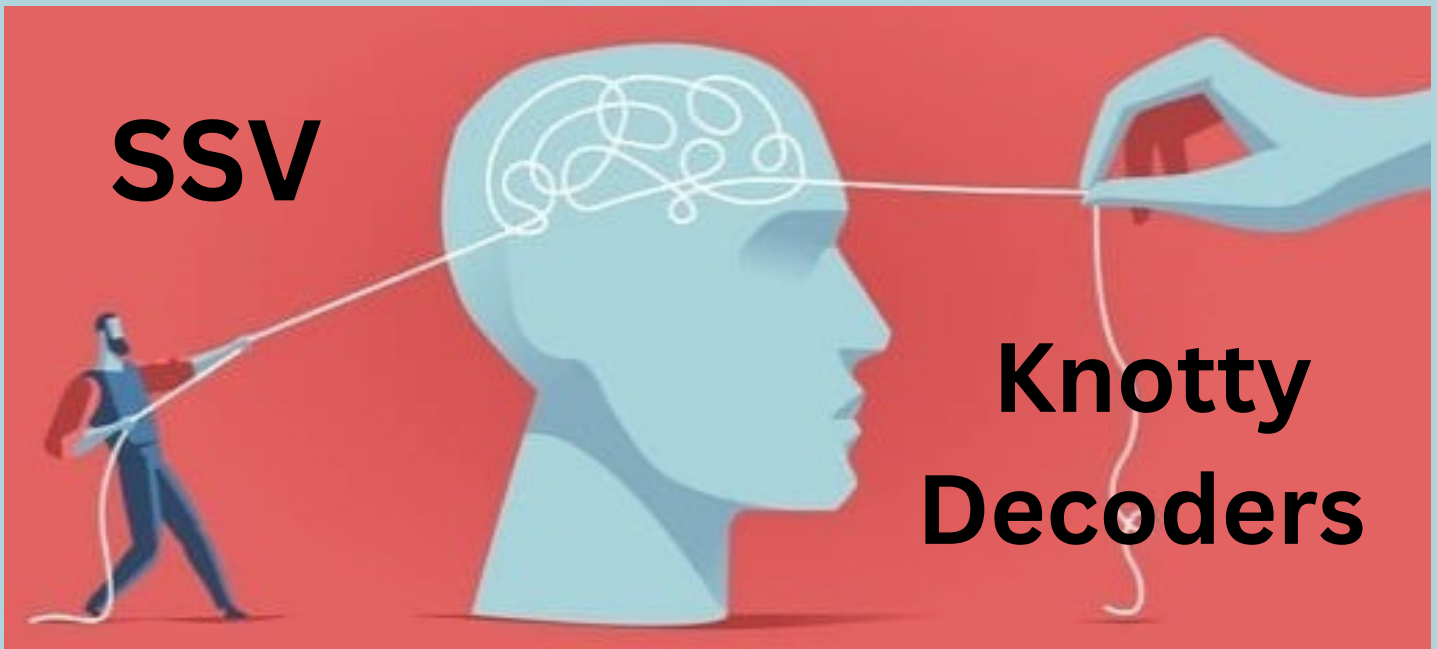

Incorporated into their lessons is a well-defined way of learning, paving the way for a strong foundation --- THE ROOTS!

To this effect, a well - equipped infrastructure and trained personnel offer the much needed support. We have at the Junior level itself clubs for heritage, science and values where learning extends beyond books!

The ROOTS are nurtured at SSV giving rise to a wholesome education....

What am I ???

1. I am a part of your body
2. without my first, I am found in the forest
3. Without my last, I am something a ball can do
4. Without my first and last, I am sharp

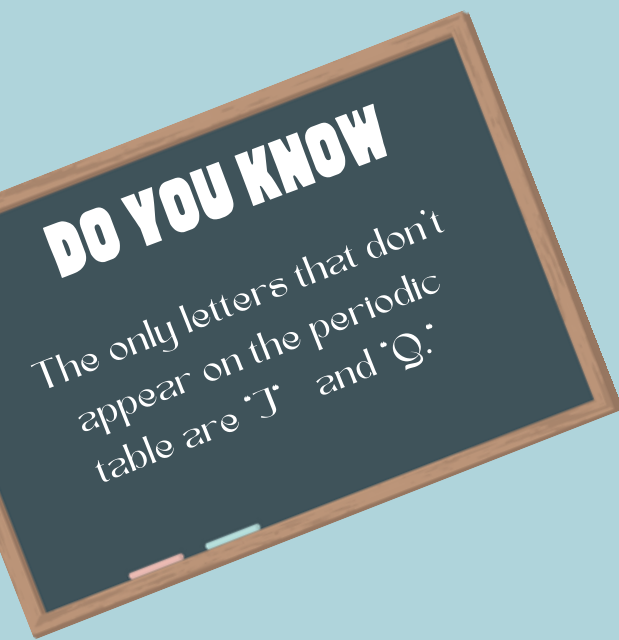

Calculator Fun

1. FIND THE WORD FROM THE GIVEN NUMBER

0.7734

2. Try this on a calculator: $1/7$ $1/7$ gets 0.142857142857... $2/7$ gets 0.285714285714... $3/7$ gets 0.428571428571... In each case it is the same digits "142857" repeating over and over again, just starting at a different spot.

Answers for February edition quiz

- The letter 'u
- wind.
- An echo!
